

**BOYS & GIRLS CLUB  
OF FAUQUIER**

July 9, 2015

To whom it may concern,

It with great pleasure that I share the value I see in the missions and efforts of Team Green World and its Executive Director, Donna Bukevicz. Donna is a true innovator in her development of resource conservation and ecological studies through music and art. Her program engages all learning styles and allows children to participate both creatively and intellectually.

Our club is entering a new phase of existence and operations and has a vision that includes greatly increased community outreach and collaboration that will benefit not only our student members but the community as a whole. This includes an intentional programmatic collaboration with Team Green World in an effort to enhance our offerings in healthy lifestyles, the arts, and academic success, and character and leadership. We are pleased to offer office space to Team Green World in exchange for regular programs provided for the Boys & Girls Club and look forward to the outcomes in responsibility

I am in most earnest support of the mission and efforts of Donna and Team Green World in teaching kids responsibility and care for the world we live in. I encourage you, also, to support them in every way.

Working together for our community,

Lynne Richman Bell  
Executive Director
