

CURRICULUM CONNECTIONS AND EDUCATIONAL RESOURCES

Team Green World's programs implement 21st Century Learning Standards: Preparing 21st Century Students for a Global Society - An Educator's Guide to the Four C's: Critical-thinking, Communication, Collaboration, and Creativity.

[Download PDF:](#) The Four C's

Team Green World Integrates STEAM Learning: Education leaders recognize that new learning and thinking skills will be required to help students successfully enter developing job markets. To foster development of these skills, the National Education Association (NEA) has incorporated the arts into STEM emphasizing "STEAM" education that unleashes creativity and promotes innovation.

NEA Today: <http://neatoday.org/2014/07/16/how-music-education-powers-the-steam-movement>

TGW's music & art programs incorporate these EPA facts: Driving a car, using electricity to light and heat your home, and throwing away garbage all lead to greenhouse gas emissions. You can reduce emissions through simple actions like changing a light bulb, powering down electronics, using less water, and recycling.
