Warrenton, VA 20186

To My Fellow Board Members,

Donna, the organization of the TGW Board of Directors looks great and I know it will all come together as we each find our passion and niche in TGW. You bring the heart of TGW together. Your passion for entertaining and educating others, who also share in that passion for entertaining, provides a whole new look to the STEM of ecological thinking.

Ross, you bring a worth of knowledge and experience of music, production and publication that connects to future partnerships of TGW, especially in music branding.

Susan, your comments are spot on and the passion and knowledge that you possess for grant writing and the specifics that need to be presented to corporations are outstanding and a treasure for TGW.

Mark, your business experience and knowledge of obtaining information continues to provide direction for TGW in making contacts with future partners and sponsors.

Rhonda, your organization skills, and collector of knowledge skills supports the growth of not only the board meetings of TGW but also each partnership's programs.

Thank you all,
Karen David
Board Member
